

QUALITY POLICY

AUTOTERMINAL Barcelona is a logistics platform for vehicles in the Mediterranean and Southern Europe, located in the Port of Barcelona. It occupies spacious and modern facilities that make it an advanced intermodal (sea, rail and road) vehicle transport centre, prepared to provide integrated solutions to the logistical challenges posed by globalisation.

Aware of the demands of our customers and the market, the different processes and services developed by AUTOTERMINAL are based on the principle of proactivity – anticipating changes – and that of continuous improvement.

To this end, we are committed to investing in highly qualified human resources, environmentally friendly technologies and to establishing improvement objectives in line with our strategic plan, the needs of our customers and other stakeholders.

Our commitment is evidenced by our quality system which complies with current legislation, the ISO 9001 standard and is audited annually by an accredited certification company.

Carlos Artigas
